

MINECOW

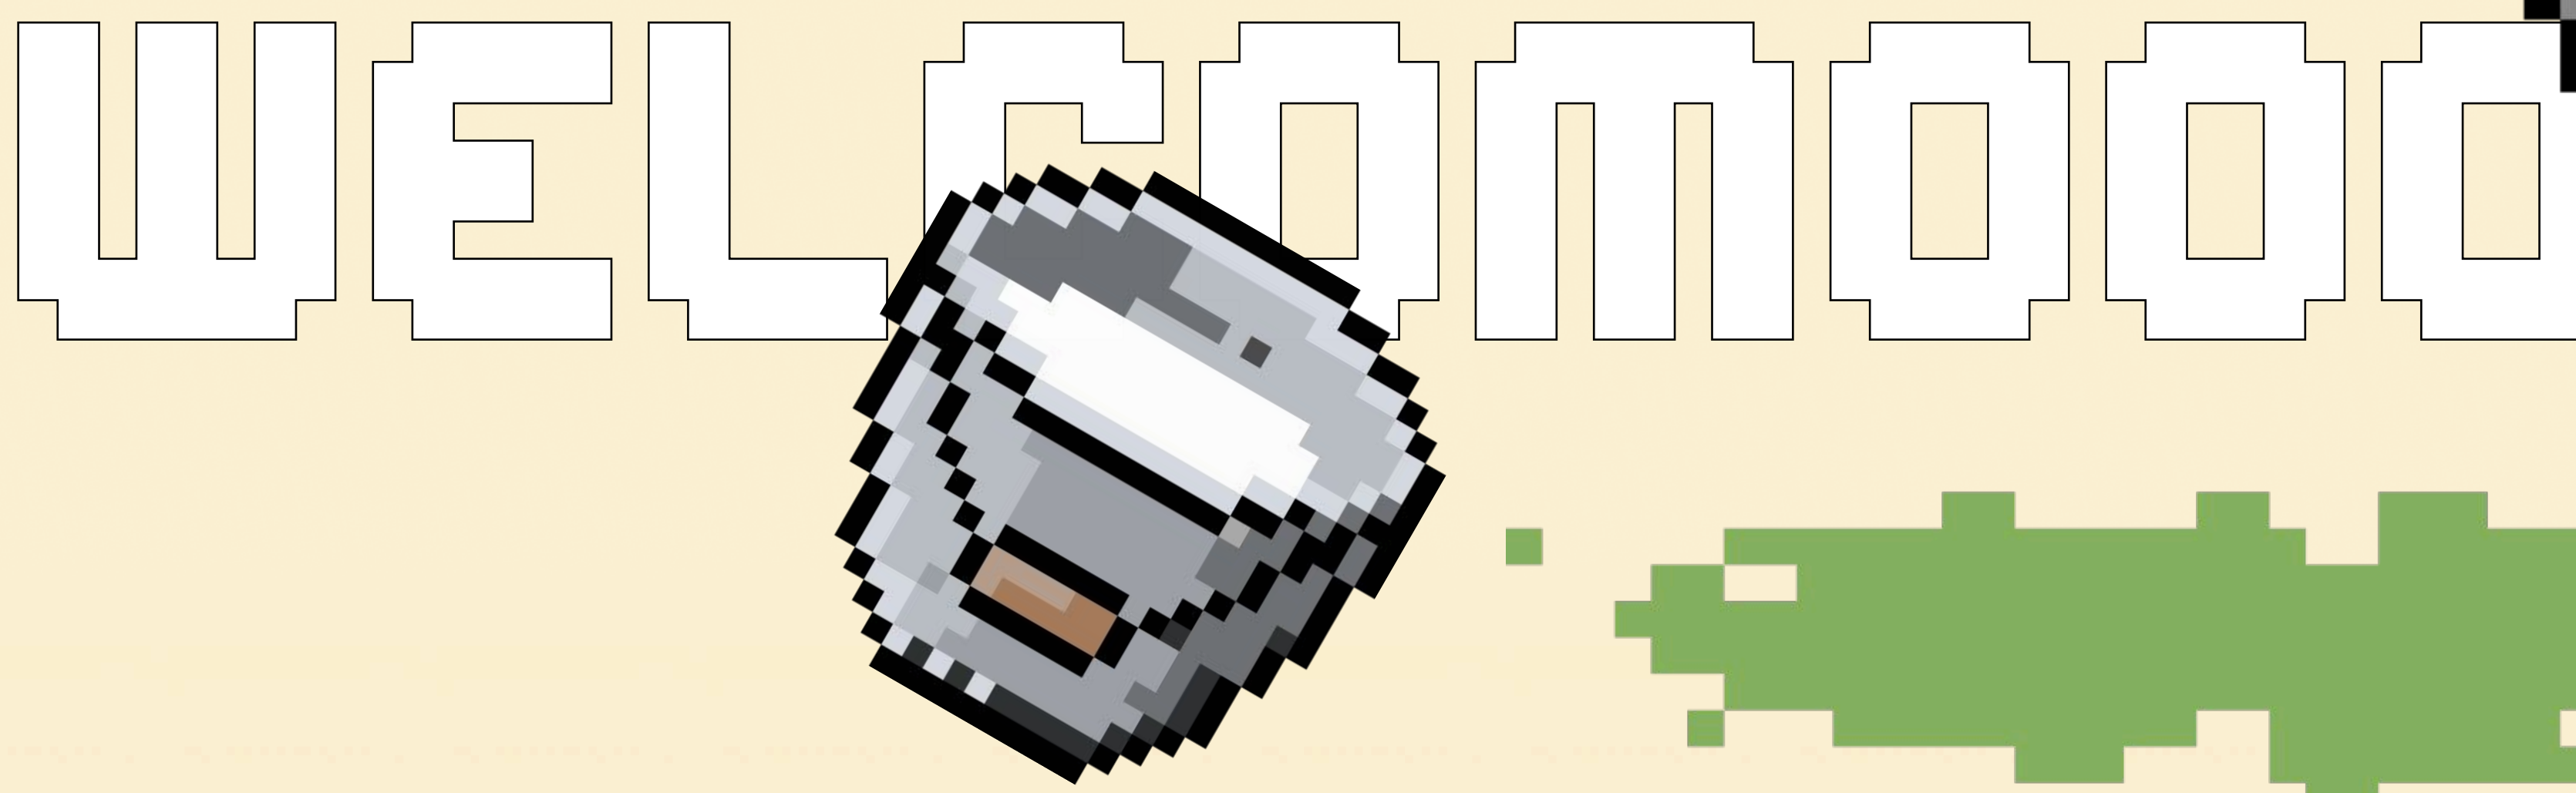

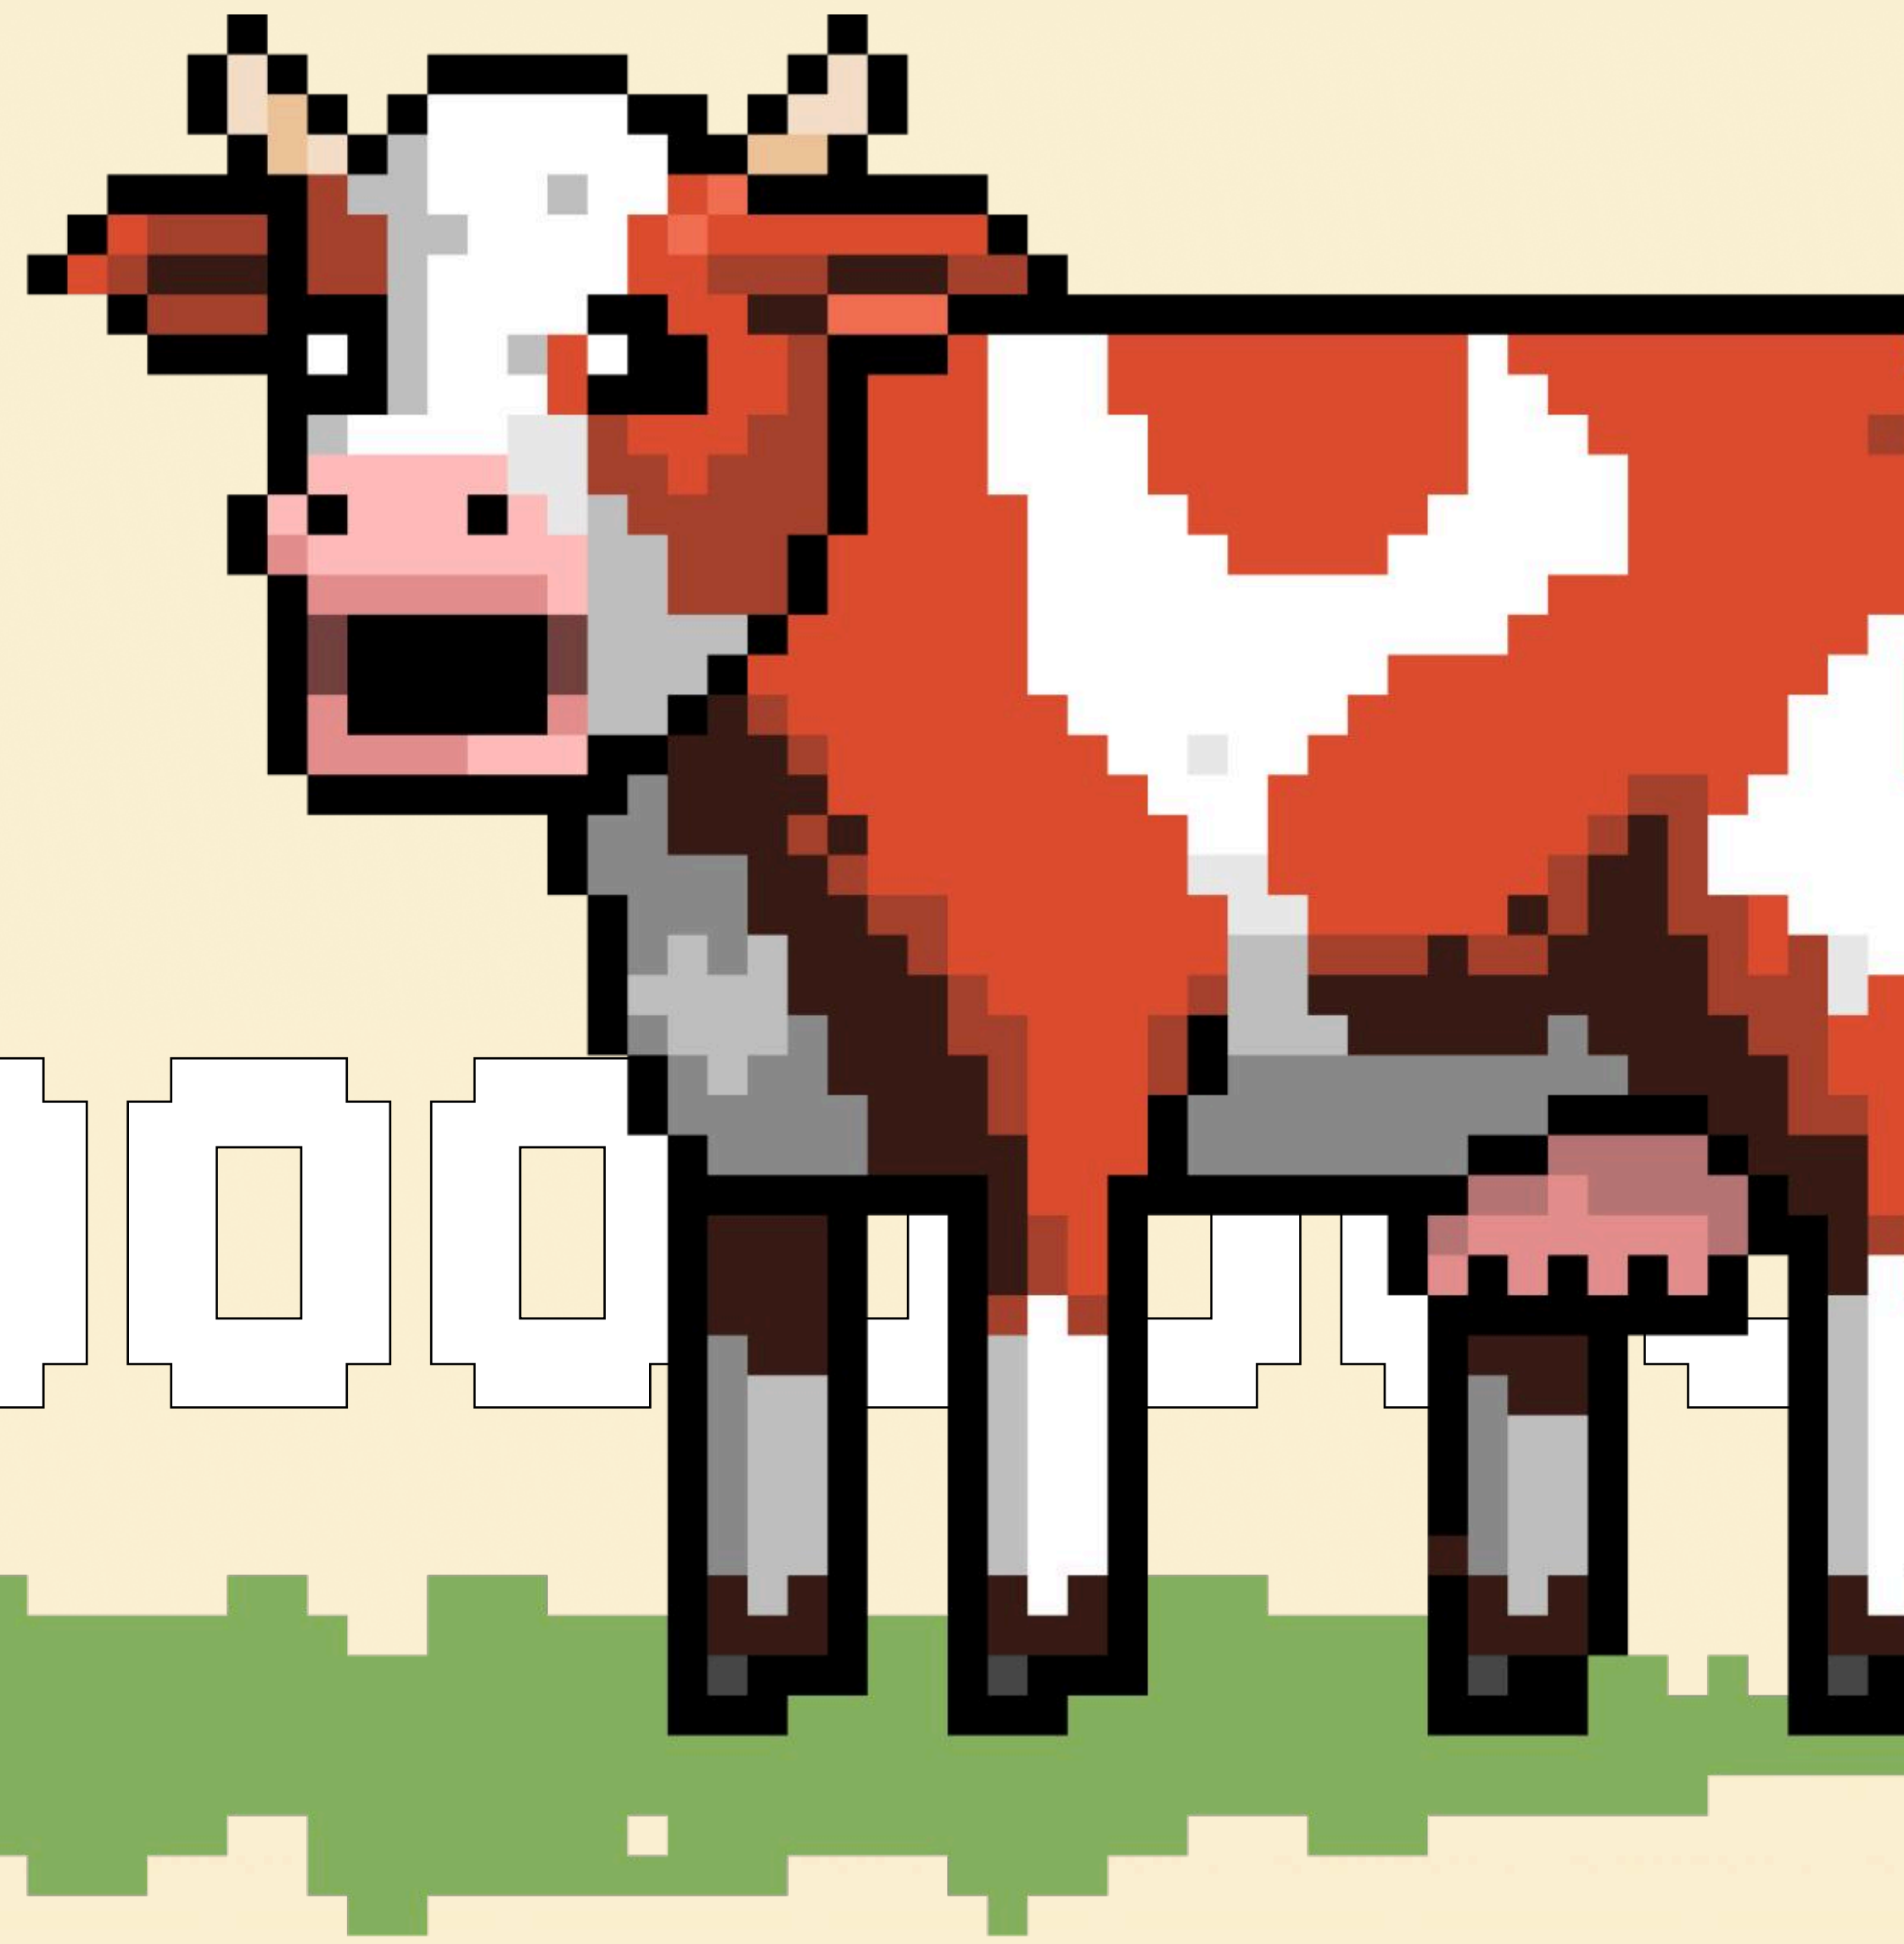

WHITEPAPER

MOOVERVIEW

Hey there, Milk Masters! Welcome to the MineCow whitepaper—or as we like to call it, the "moo-paper." If you're here, you've probably been moo-ving and groo-ving, tapping your way to buckets of milk and spinning that lucky wheel like a champ. This little document is where we spill all the milk about where MineCow is headed, how you can keep raking in the rewards, and, of course, how our shiny new **MineCow Tokens** are going to make your taps even more legendary.

I. THE MINECOW GAME

So, you already know the deal—tap that cow, collect milk, level up, and crush it on the leaderboard. But wait, there's **moo-re!**

I.1 BOOSTERS FOR THE hardcore TAPPERS

EXTRA TAP POWER AND KING TAP

Feel like Thor, but instead of a hammer, it's your finger

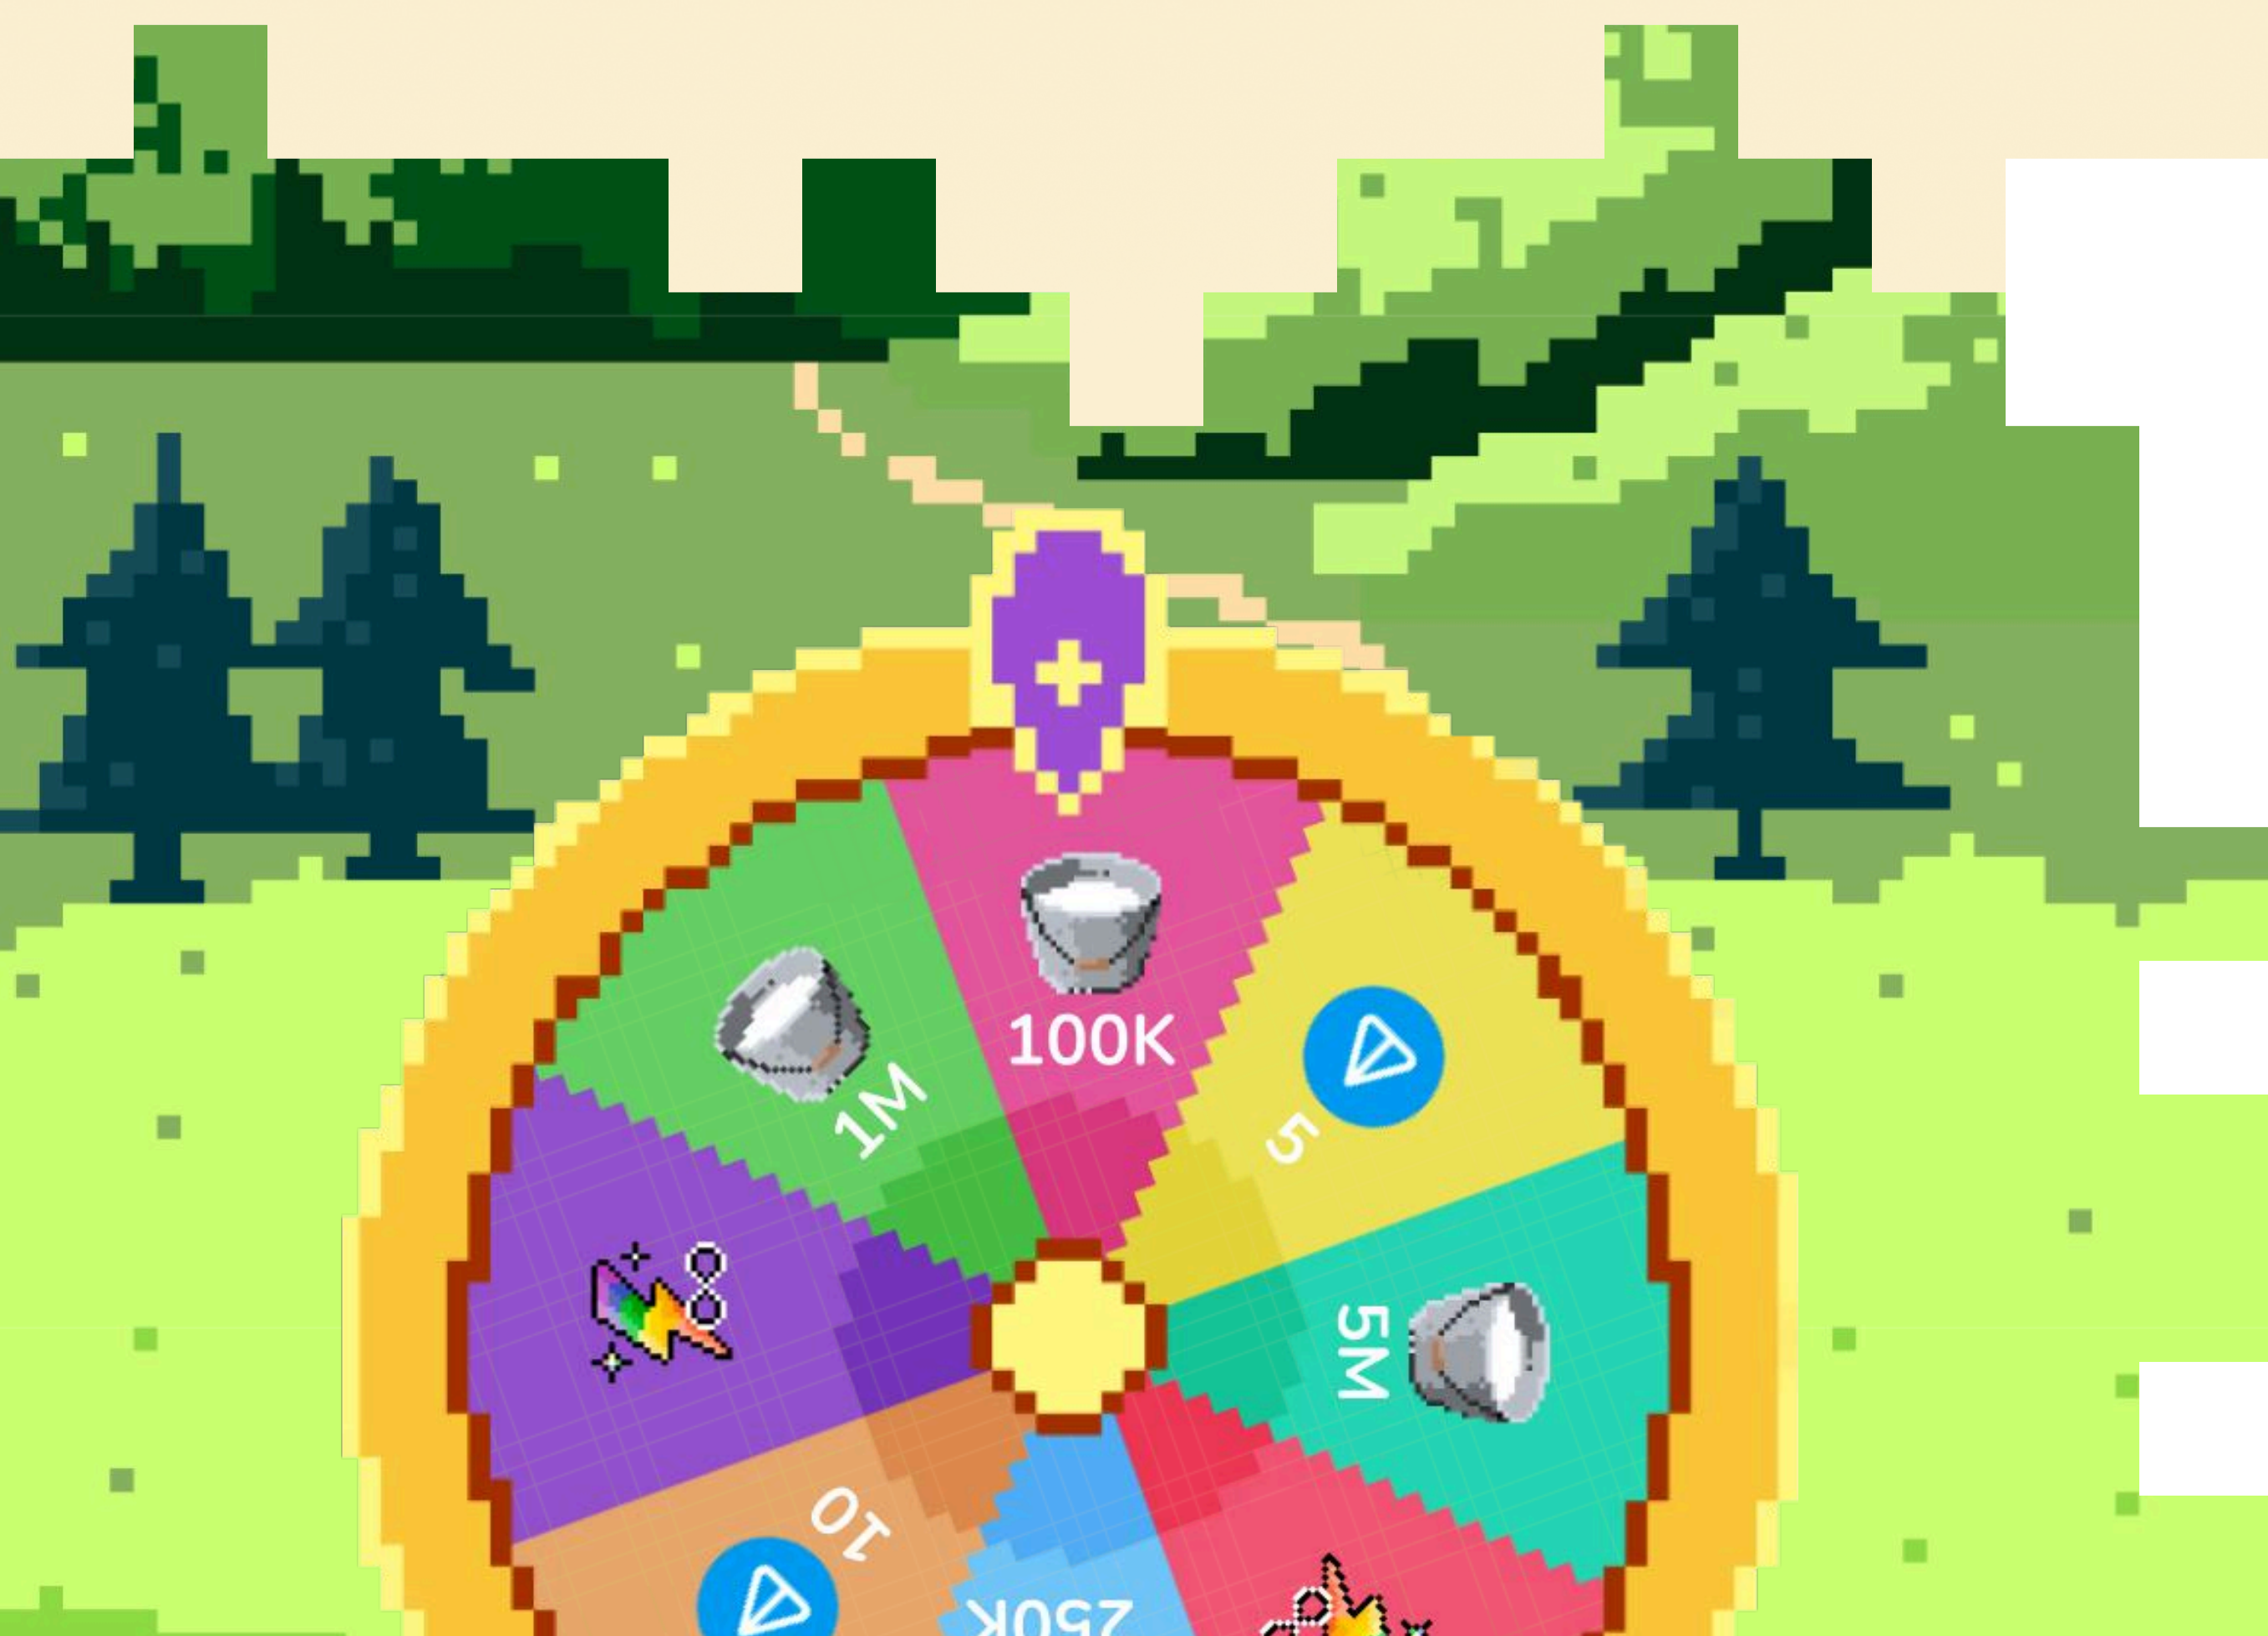

UNLIMITED ENERGY

No cooldowns, just straight moo-juice all the time

OFFLINE EARNINGS

Because even when you sleep, your cow doesn't

I.2 LUCKY WHEEL

Who doesn't love a good spin? Big prizes, rare boosts, TONS, and a whole lot of moo-mentum. Spin it daily for your chance to win big!

1.3 FUTURE FEATURES

We're cooking up some serious upgrades for you milk moguls. Here's what's in the works:

FARMING

You'll be able to plant crops, grow 'em, and rake in even more goodies.

PRODUCTION

Use your milk and crops to craft super cool NFTs. These won't just look good; they'll let you earn **MineCow Tokens**. Think of it as your ticket to milk-money greatness.

2. PARTNERSHIPS

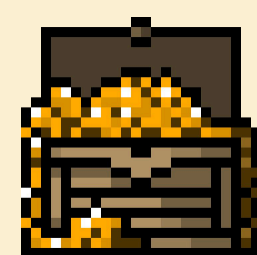

We're teaming up with other games and Web3 projects to bring you sweet crossover rewards. Think special in-game items, bonus tokens, or exclusive collectibles. Keep your eyes peeled for the moo-sive updates!

3. THE GOLDEN MILK: MINECOW TOKENS!

This is where things get juicy (or should we say creamy?). Let's break it down:

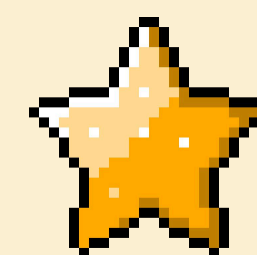

3.1 WHAT'S THE TOKEN FOR?

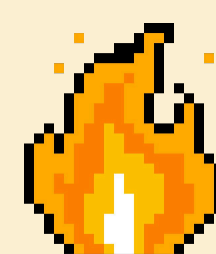

REVENUE SHARING

Every month, **50% of all in-app purchases go to token stakers**. That's right—you'll literally be earning while tapping.

BONUS

Active players (aka people who are actually moo-ving) will get more than just couch cowboys.

IN-GAME BOOSTS

Burn tokens to buy premium boosters and exclusive goodies

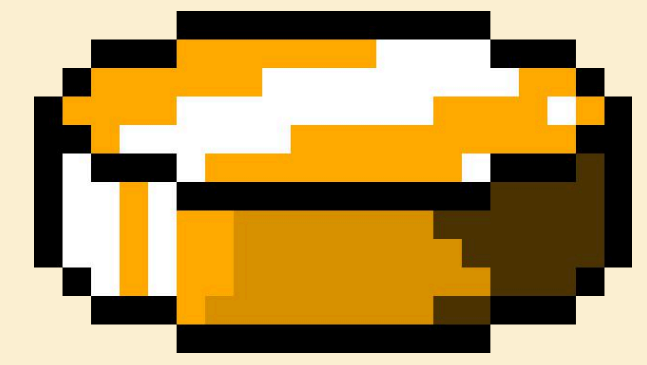

NFT REDEMPTION

Trade NFTs made through production for more tokens. It's a win-win for all you farmer-artists out there.

3.2 TOKEN LAUNCH DETAILS

Here's how the initial mint will go:

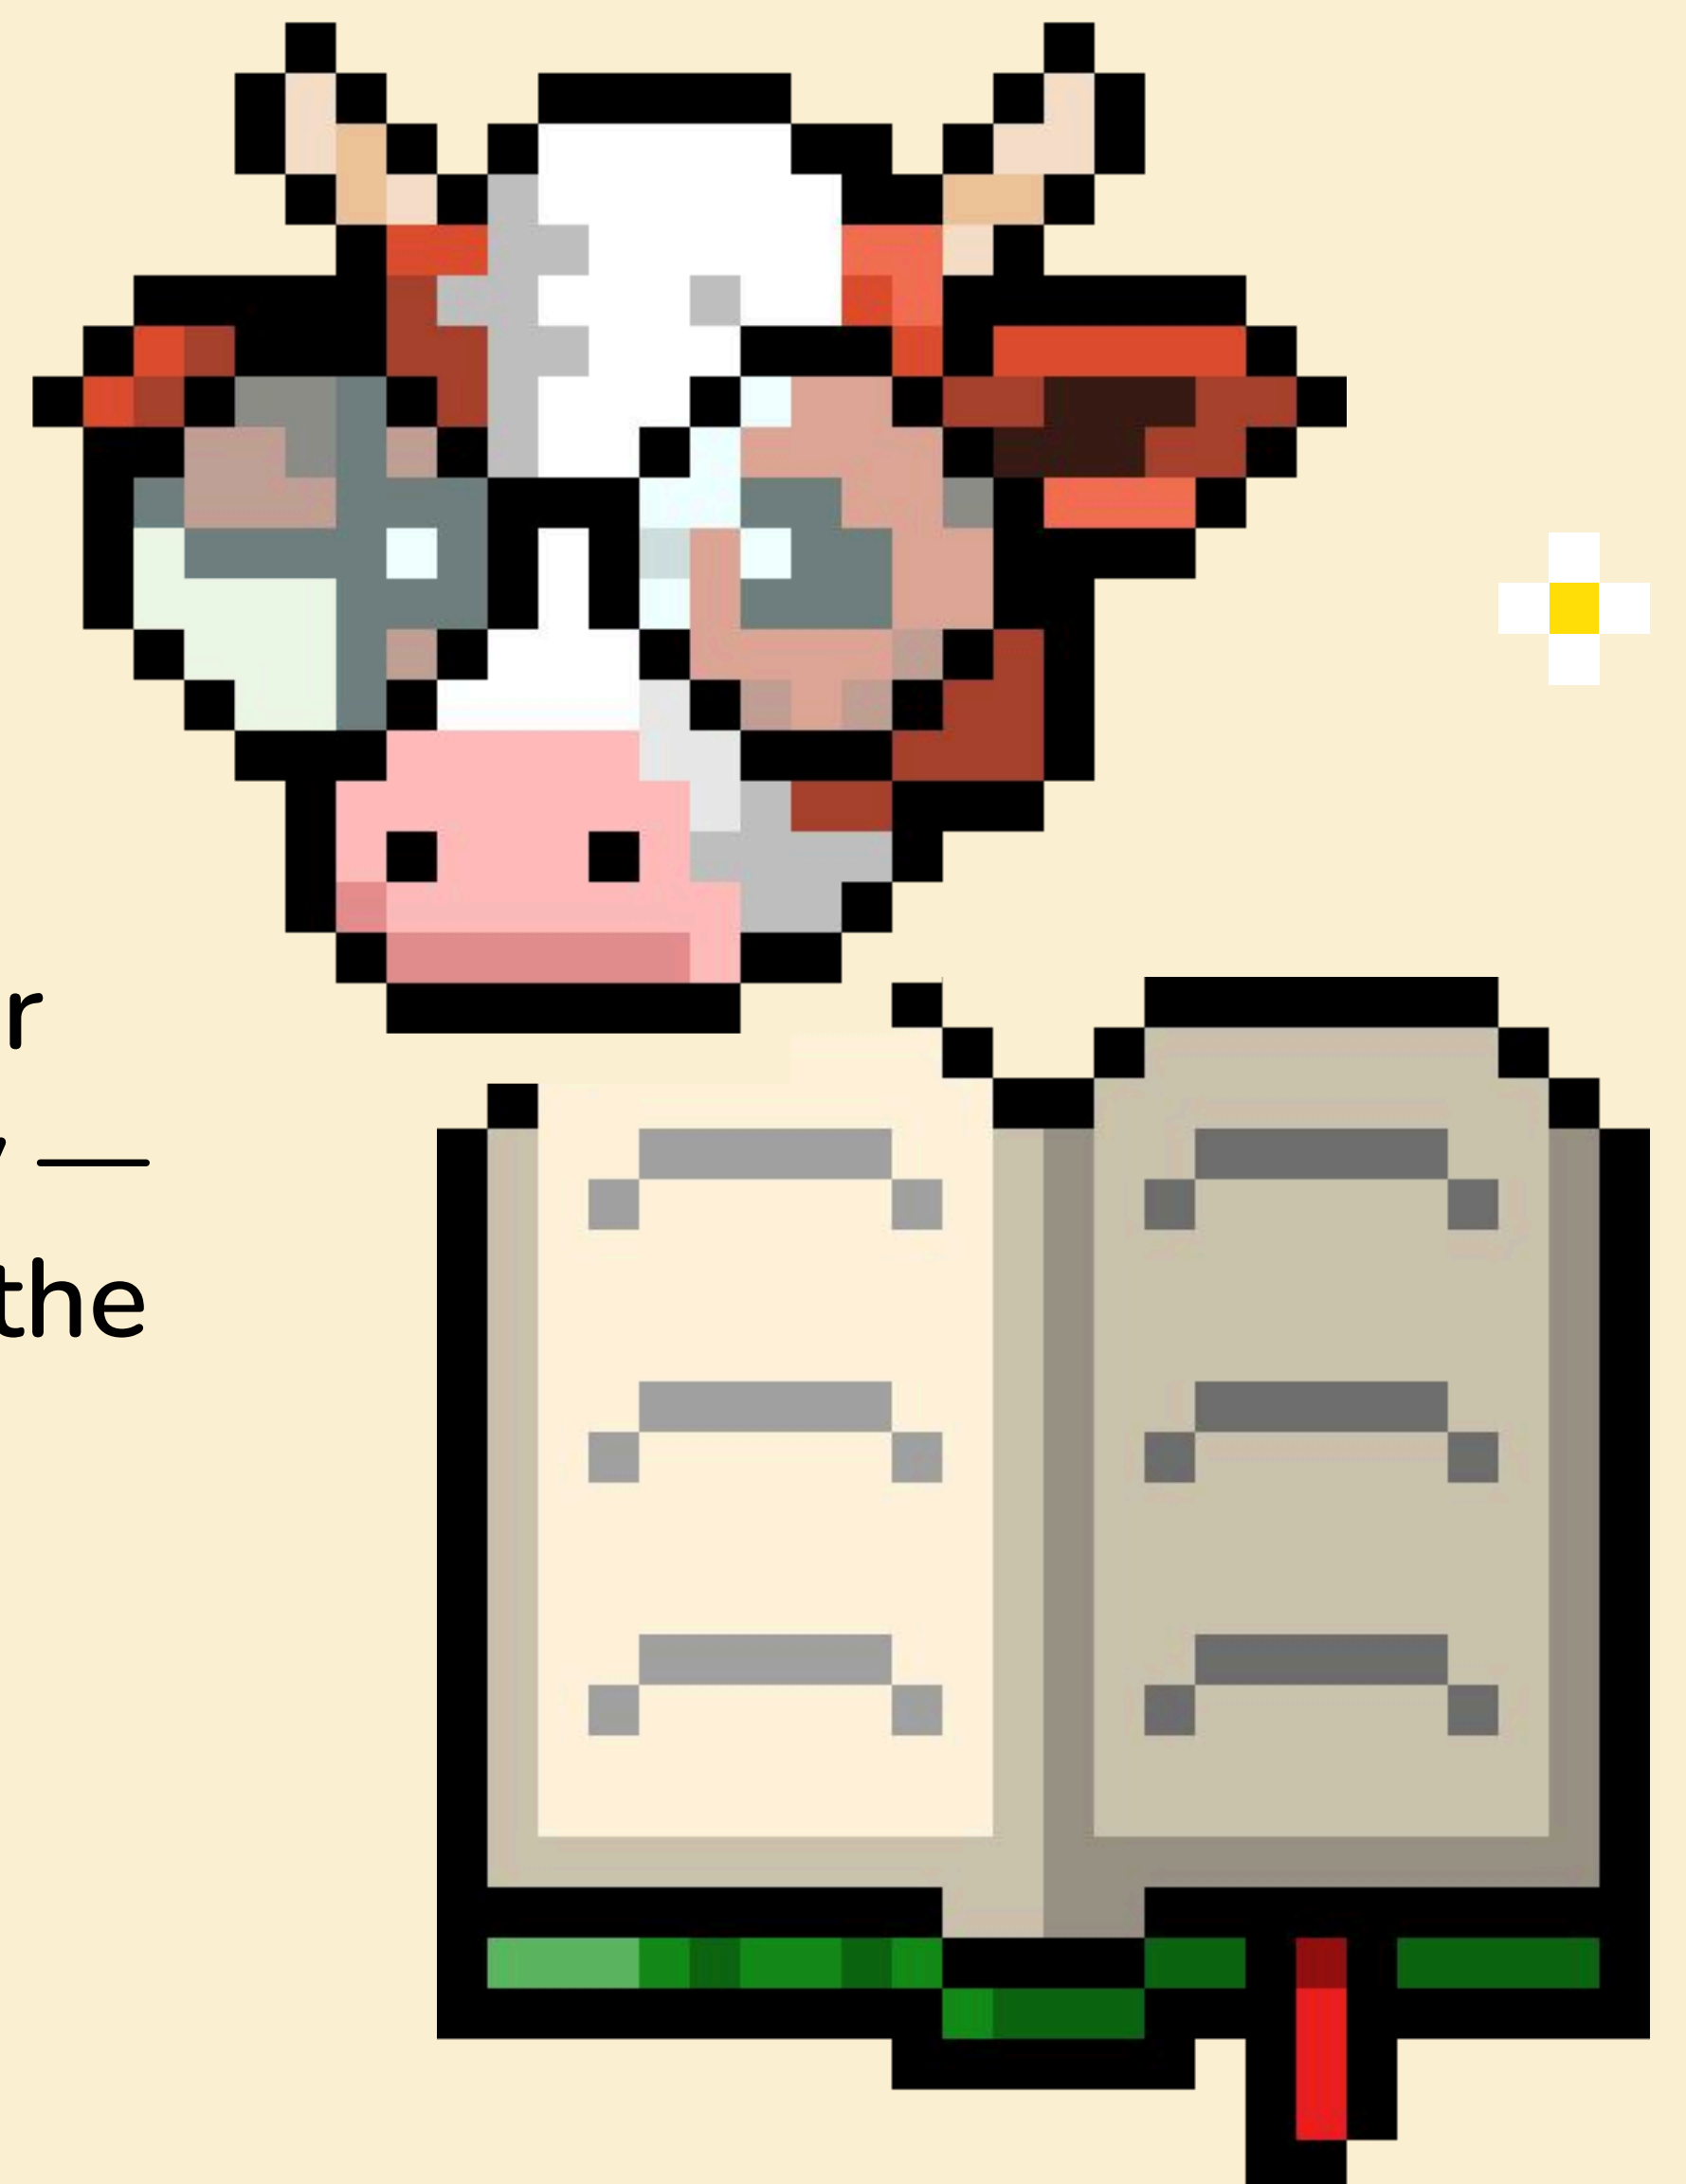

CATEGORY	% OF TOKENS	VESTING SCHEDULE
Airdrop (Community members who made purchases with stars)	20%	25% unlocked on TGE, 6-month vesting
Airdrop & Tasks	5%	10% unlocked on TGE, 6-month vesting
Marketing	5%	6-month vesting
Staking Pool	20%	No vesting
Presale (ICO)	5%	No Vesting
Team	5%	12-month vesting
Liquidity	40%	No vesting

**And in the future, your production-crafted tokens will slowly dilute the supply.
Don't worry—it's all part of the master plan!**

4. M00MPLIANCE RULES

We've got some legal stuff to chew on.

- If you're a citizen of the **USA, China**, or any other country with restrictions related to tokens, sorry — you can't mess with the tokens. We don't make the rules, we just milk them.
- This document is not a legal obligation or commercial offer in any form.

5. ROADMAP: WHERE WE'RE MOOVING NEXT

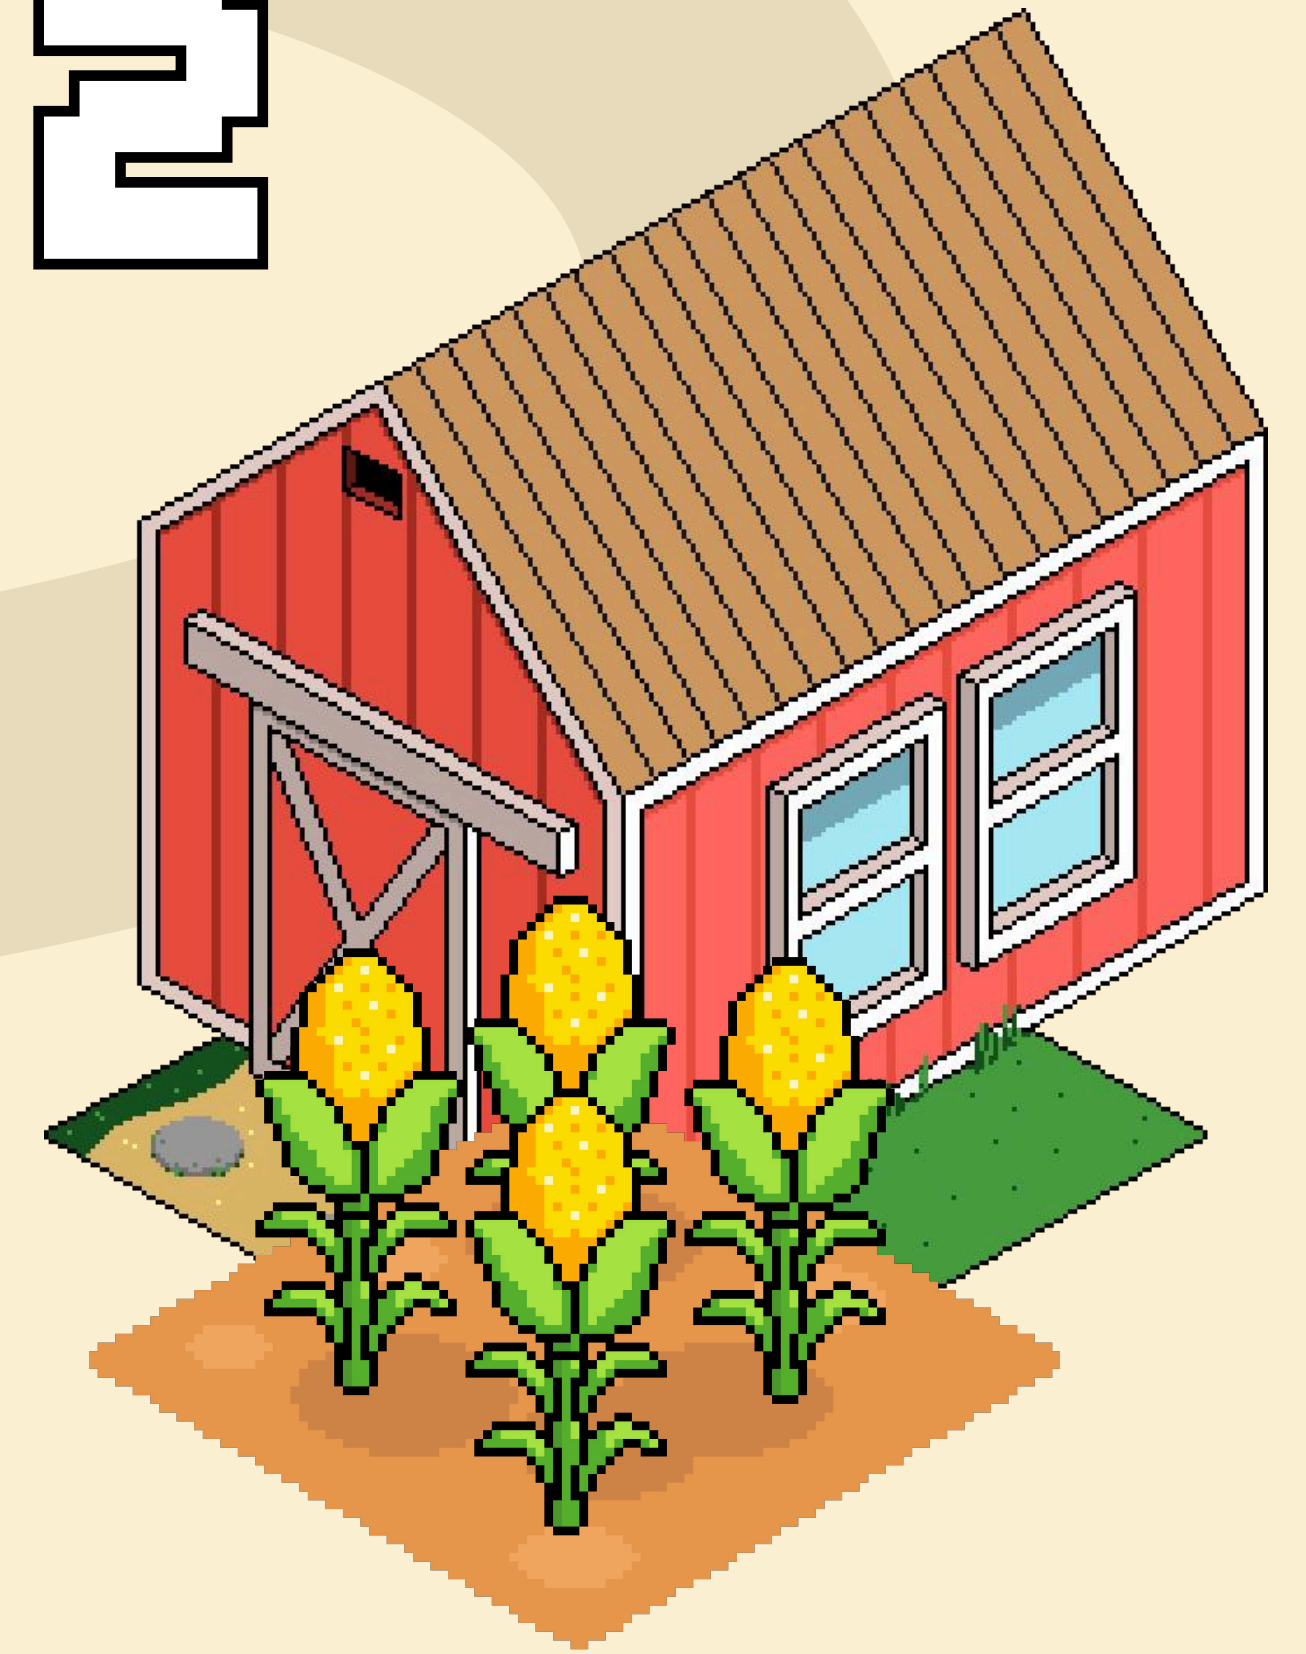

PHASE 1: MORE MILK

- Launch the tokens.
- Start the milkconomy.

2

PHASE 2: GREEN THUMBS

- Add farming and crop-growing features.

3

PHASE 3: NFT-ASTIC

- Roll out production mechanics.
- Launch NFT crafting and token earning features.

6. FINALE

MineCow is here to keep the fun flowing (like milk from a happy cow). With boosters, tokens, partnerships, and NFTs, we're building a world where every tap counts and every player can be part of something bigger. So keep tapping, keep spinning, and get ready to moo your way to the top!

Thanks for being the udderly amazing community you are.
Let's milk this thing for all it's worth!
